

You Have Been Nominated for the SDG Tech Awards 2021,

the largest sustainability award in the Nordics!

The SDG Tech Awards is the ultimate celebration of sustainable technologies gathering startups, SMEs and corporations to form a cross-sector community of like-minded companies. This is not just an award show that celebrates and provides a platform for green technologies, but a multi-phase program that connects these action-taking members of the community to facilitate the green transition.

“Participating in the SDG Tech Awards creates a good opportunity not just as a winner, because even if we had not won the award, we got connected with very good partners, entrepreneurs and startups, and you see that there’s a common goal. So this is an interesting competition where we all can win.”

Dr. Anuj Dhariwal
Global head of Scouting & Venturing

Why Participate?

Visibility & Branding

- Use the largest sustainability award in the Nordics to reach new target audiences and form new partnerships.
- Recognition onstage and at our solutions expo to a live audience of 3000+ businesses, politicians, talents, business angels, partners, innovators, and more.

Matchmaking Potential

- Use the assessment score from our expert jury panel for your green technology to increase credibility for investors and stakeholders.
- Matchmaking with partners and investors at the event and solution expo.
- Certification and validation of your green technology from an independent jury panel.

Opportunities for Innovation

- Join **Greater Green Hub** the largest sustainability community in the Nordics for access to talent, storytelling, networking and more.
- Invitation to speak at and attend Sustainability events like **Green Impact Week** and **Copenhagen Green Investment Summit** for access to innovation, engagement, partners, and more.

Multi-Phase Process

Phase 01 - Pre-event

Once you **confirm your nomination**, you will be asked to complete a company profile-building form to be evaluated by our independent jury panel.

Phase 02 - Event

Based on the jury's assessment, 5 finalists in each of our 10 categories will be announced, with the winners to be revealed at the SDG Tech Awards show on 12 November.

Event-day activities include a solution expo and networking, startup pitches, keynote speakers, and more!

Phase 03 - Post-event

Relevant data and technologies from the event are shared in the SDG Tech Awards e-book, including the coveted Top 100 Danish Sustainable Technologies list. As a new Sustainary community member, the door to innovation is now open to speak at events and access our programs.

3000+
live viewers

Thank you for taking action in sustainable change for the future - we appreciate your contribution to accelerating the green transition, and hope you **confirm your nomination** to take part in this exciting event.
